SMALL GROUP - ENDLESS SPACE

Personal Therapy in Group Analytic Training

According to the EGATIN Standards one of the parts of the tripartite structure of group analytic training is personal therapy in a small group which may take place in a mixed patient/trainee or trainee-only group. Every potential group analyst is going through his or her personal treatment in the group during their studies in the GA course.

EGATIN Study days in Vilnius invites you to explore specific challenges and advantages created by personal therapy in a small group as part of group analytic training. These and other questions can lead us in our enquiry about roles and boundaries:

-How the therapeutic experience differs in different settings (block therapy, continuous trainee group, inclusion in the patients' group) for both trainee and group analyst?

-How the therapeutic process of the trainee is interconnected with their learning process in the training? In which ways personal therapy in the small group can assist, rival with or impede training?

-How it is to have colleagues as patients and colleagues as fellow group members?

-What are the effects of having several roles in the training program while being a small group conductor?

FRIDAY

27 APRIL, 2018
